SUBJECT: Submittal of a Resolution Amending the Traffic Regulation Code Establishing Bike Lanes on Orchard Avenue, Division Street, Thompson Avenue and South Frontage, Nipomo; El Moro Avenue, Los Osos; and Sixteenth Street, San Miguel

Recommendation

It is recommended that your Board approve the attached Resolution amending the Traffic Regulation Code Establishing Bike Lanes on Orchard Avenue, Division Street, Thompson Avenue and South Frontage, Nipomo; and El Moro Avenue, Los Osos; and Sixteenth Street, San Miguel.

Discussion

The Department of Public Works seeks to implement the County Bicycle Plan adopted by your Board. The most recent plan update was November 2005. Several recent projects have been developed, reviewed and constructed with marked bike lanes. Approval of the proposed resolution will add these bike lane facilities to the Traffic Regulation Code Book.

Division Street, Nipomo

Division Street from South Las Flores to Orchard Avenue was widened and striped to facilitate bike lanes as part of a paving project in 2005. The road section from Orchard Avenue to South Frontage requires a minor road widening project to be completed in the near future and at that time striping and signs will be installed. Parking will be eliminated on one side of the street to accommodate the bike lanes in this section. Impact will not be significant, as there is no direct access or utilization of parking at this location.

Thompson Avenue, Nipomo

As part of the County's Bikeway Plan, Thompson Avenue is a major part of the planned bike route. The road segment fronting Nipomo High School has been widened and striped for bike lanes. The proposed project to be completed this year will be marked for bike lanes from the High School to Knott Avenue at the south end of town.

South Frontage, Nipomo

Over the last couple of years development along South Frontage has been widening the road width for the inclusion of bike lanes. The remaining parcels are under construction. With the existing roadway and completion of projects under construction, striping and signs will be installed from Southland Avenue north to Grande Avenue.

Orchard Avenue, Nipomo

On Orchard Avenue some minor road widening and existing striping removal will allow public works to connect existing bike lanes on Orchard Avenue from Division Street to Tefft Street bike lanes. This will also provide a center turn lane and manage long term truck parking in this stretch of the road.

16th Street, San Miguel

The proposed regulation will extend the existing bike lanes on 16th Street from L Street to Mission Street once the project for improvements fronting the elementary school is completed this summer.

El Moro Avenue, Los Osos

The proposed bike lane on El Moro Avenue will connect the new bike path to the existing Bike lane on Eleventh Street and Baywood Elementary School, providing a safe route to school.

Other Agency Involvement/Impact

Area advisory councils have been involved in project planning prior to the construction of these facilities. The work is consistent with the adopted County Bikeways Plan as overseen by the County Bicycle Advisory Committee. California Highway Patrol is responsible for the enforcement of parking and operation within the bike lanes. Lillian Larsen School in San Miguel and Baywood Elementary in Los Osos have been involved in planning safe route to school plans.

Financial Considerations

Posting of the proposed bike lanes is estimated to cost approximately \$1200 for each road, which is within the Roads budgeted amount for this activity.

Results

Adoption of this ordinance will establish the recommended road sections as bike lanes in the Traffic Regulation Code. This will enhance bicycle travel and safety, and enforce proper vehicle use along County Roads. This, in turn will promote community livability and safety, which is a community wide objective of staff and your Board.
